PROFILE

I am Durga Devi, a Full Stack Developer skilled in front-end and back-end development. I focus on building clean and efficient applications while continuously improving my technical skills. I am eager to gain industry experience and contribute to meaningful projects.

PROJECTS

Lead Management System

- Developed a web-based Lead Management System to manage student enquiries, follow-ups, admissions, and certification details with role-based access and secure REST APIs.
- Built responsive React UI integrated with Django REST APIs and MySQL database to track leads, update follow-up status, and monitor admission pipeline efficiently.

Institute Website

- Developed a simple institute website using React, Django, and MySQL to display student admissions details, courses offered, certifications, and basic institute information.
- Implemented admin login with basic CRUD operations to update website content, along with a responsive and user-friendly interface.

E-Commerce Website

- Built a responsive e-commerce web application using React with features like product listing, search, add to cart, and checkout.
- Designed a dynamic, mobile-friendly UI using React hooks, HTML, CSS, JavaScript, and Bootstrap for a smooth user experience.
